PREMIUM

Product:
Disposable Diapers
Use: Unisex

Soft and Comfortable

A non woven material with soft and fine ventilation properties provides one way flow, thus keeping the skin dry and allowing air to flow for comfort use.

Powerful Absorbent Padding

A mixture of soft fiber and super absorbent polymers provides an excellent keep-dry system. Fluid is absorbed and contained within the padding, preventing leakage and keeping it dry.

Frontal Tape

The use with ease of the fastening tape enables for multi-fastening as long as the diaper is clean and dry.
